

August 9, 2019

### Project Overview

Stormwater flows through Ellenvale Run from Lemont Lake to Morris Lake. Phase 2 of this rehabilitation project focuses on replacement of the retaining walls along the 180 metre portion of Ellenvale Run between John Cross Drive and Elwin Crescent.

### Project Update - Weeks of August 5 & August 12

#### Section 1 (see project map)

##### Monday, August 5 - Friday, August 9

- Completion of Cast In Place Pipe inlet structure
- Backfill of Precast Channel
- Grading

##### Monday, August 12 - Friday, August 16

- Backfill of Precast Channel
- Grading

#### Section 2 (see project map)

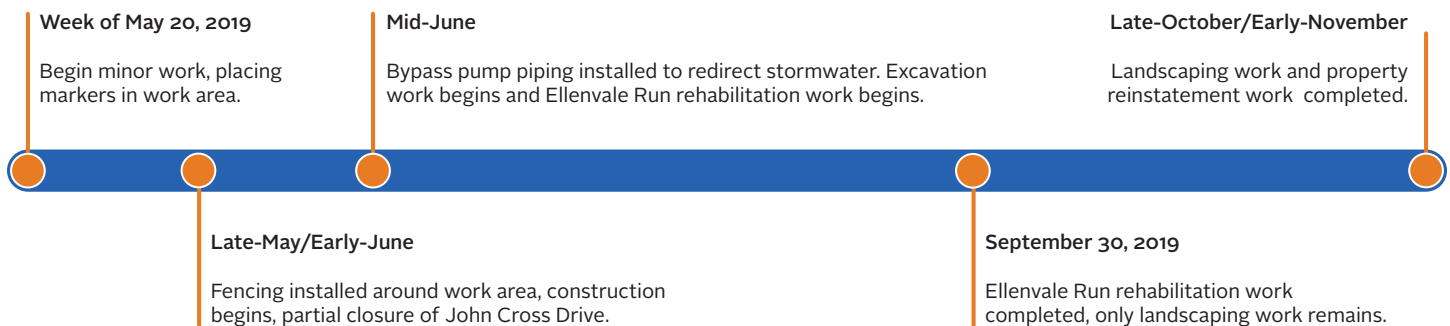

##### Monday, August 5 - Friday, August 9

- Completion of preparation of granular working surface
- Installation of Precast Channel
- Construction of Cast In Place connection to existing culvert

##### Monday, August 12 - Friday, August 16

- Installation of Precast Channel

### Project Timeframe

### What to Expect

The contractor will have heavy equipment on the roads to facilitate stream reconstruction. Traffic will at times be delayed as temporary traffic control measures may be in place in the areas of work. Work will also be progressing within the channel. Residents can expect to see heavy equipment within the channel removing the existing walls.
